MUHAMMAD SHAHMIR KHAN

Peshawar, Pakistan | +92-317-6775852 | shahmirkhan973@gmail.com | linkedin.com/in/shahmir-khan-2b6575252

OBJECTIVE

Computer Science graduate from FAST–NUCES Peshawar with hands-on experience in full-stack web development using the MERN stack (MongoDB, Express.js, React.js, Node.js), plus Python and Machine Learning. Completed a 2-month internship at the Khyber Pakhtunkhwa Information Technology Board (KPITB). Seeking a Full-Stack / MERN Developer position to build scalable, AI-powered web applications and grow within a professional team.

EDUCATION

Bachelor of Science in Computer Science *2022 – 2026*
FAST – National University of Pakistan (NUCES), Peshawar

TECHNICAL SKILLS

Frontend	Backend	Databases	Programming & ML	Tools
HTML, CSS, JavaScript	Node.js, Express.js	MongoDB	Python	Git & GitHub
React.js, Tailwind CSS	Django, Flask, PHP	MySQL, SQL, SQLite	Machine Learning, NLP	UML, MS Office

Core Stack: MERN (MongoDB | Express.js | React.js | Node.js)
Soft Skills: Strong Communication | Teamwork | Problem Solving | Quick Learner

WORK EXPERIENCE

Intern *2 Months*
Khyber Pakhtunkhwa Information Technology Board (KPITB), Peshawar

- Completed a 2-month internship at a government IT organization, gaining hands-on exposure to professional development practices.
- Contributed to web-based solutions, applying full-stack concepts in a real-world, deadline-driven environment.
- Strengthened Git, debugging, teamwork, and communication skills while working with mentors and developers.

PROJECTS

Savvy Mart – AI-Powered E-Commerce Aggregator *2025 – 2026*
Python Django/Flask | HTML/CSS/JS | MySQL | Scrapy | Docker | BERT/NLP

- Final Year Project: Built a unified platform aggregating products from multiple e-commerce sites with real-time price comparison, enabling users to find best deals without visiting individual sites.
- Integrated AI & NLP modules: multilingual search (English, Urdu, Roman Urdu), BERT-based sentiment review summarization, and fake review detection.
- Full-stack: HTML/CSS/JS (Frontend), Django/Flask (Backend), MySQL (Database), Scrapy & BeautifulSoup (Scraping).

Book Request Management System *2026*
PHP 8+ | MySQL | Google Books API | BCrypt

- Developed a multi-role web app (User, Admin, Super Admin) with role-controlled dashboard for browsing books by category and submitting requests.
- Integrated Google Books API for dynamic book data and BCrypt authentication across all roles; admin panel with full CRUD over users and book requests.

School Management System *2024*
PHP | MySQL | HTML/CSS/JS | Bootstrap | Apache (XAMPP)

- Multi-role web app (Admin, Teacher, Student, Parent) with enrollment, attendance, grade management, and secure role-based authentication.
- Responsive Bootstrap UI with modular PHP backend, normalized MySQL database, and full CRUD operations modules.

Sticky Notes Web App *2026*
Django | Python | SQLite

- Full-stack sticky notes app with CRUD operations, persistent storage, and clean UI. Source available on GitHub.

CERTIFICATIONS & COURSES

Learn Microservices with Docker (Project-Based) *Udemy*
Hands-on Docker containerization and microservice architecture.
